

*The sharpest Kerrison Rongeur
our family has ever produced.*

-Mr. Stuugard, Master German Craftsman

KERRISON
KING

To Schedule Your Demonstration Contact (888) 950-KING

Combining the latest in digital technology with old world craftsmanship to produce “The Kerrison King”...the perfect Kerrison.

Crafted by second and third generation instrument makers from Tuttlingen, Germany, each Kerrison King is hand crafted using only the highest-quality German steel molded at specific temperatures to insure extended life and to produce only the sharpest cutting surface with a clean and powerful bite.

Like an artist with a brush, The Kerrison King is sculptured to a perfectly balanced instrument, then sharpened to a surgeon’s precision and ceramically coated twice to preserve the edge and produce a smooth action while reducing hand fatigue.

- Sharpest Kerrison on the Market
- Double Ceramic Coating Maintains Cutting Edge Longer
- Smooth Cutting Action Minimizes Hand Fatigue
- Bone-Ejector & Extra-Thin Footplates On All Models

8” (20.3cm), 40 Degree Up,
